

It is with great pleasure that I write this testimonial for Jessica of Plan Your Memories. She really helped us have a wedding we can happily remember. There were many times when things did not seem like they were going to come together. However, Jessica was always the optimistic one, reassuring us that everything would turn out fine. In the end, the wedding ceremony and reception were beautiful. She made every effort to ensure that this happened. We felt that she went above and beyond the service we expected to receive from her. We are very grateful for this.

We now live in another state, and were in the moving process during the planning of the wedding. Regularly scheduled meetings with Jessica helped us plan effectively and keep us on track. Also, as a result of being in another state, we did not have many face-to-face communications with Jessica. However, she was always available by phone or email whenever we needed her.

Nothing ever goes exactly as planned, and this wedding was no exception. Many of our original plans for the wedding did not pan out. However, when the plans did change, Jessica was there to help to provide valuable advice and guidance. She adjusted to the changes, seemingly without effort, and helped us have a wonderful wedding. I certainly recommend her to anyone looking for a wedding planner.
